PROFESSIONAL SUMMARY

Results-driven **Full Stack Developer with 7+ years of experience** in designing, developing, and deploying scalable web applications. Strong expertise in **JavaScript, React.js, Node.js, Next.js, REST APIs, MySQL, and MongoDB**. Proven ability to build high-performance enterprise applications in healthcare and finance domains. Experienced in **Agile methodologies, API integrations, and AI-assisted development** to improve productivity and code quality.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js

Backend: Node.js, RESTful APIs, Express.js

Databases: MySQL, MongoDB

Tools & Platforms: Git, GitHub, VS Code, GitHub Copilot

Other Skills: API Integration, Responsive Design, Performance Optimization, Agile/Scrum, AI-assisted Development

CERTIFICATIONS

- SQL (Intermediate) – ID: D50A6FFEC4CC
Credential URL: <https://www.hackerrank.com/certificates/D50A6FFEC4CC>
 - JavaScript (Intermediate) – ID: 88D369950E2D
Credential URL: <https://www.hackerrank.com/certificates/88D369950E2D>
 - JavaScript (Basic) – ID: 44AF7C639443
Credential URL: <https://www.hackerrank.com/certificates/44AF7C639443>
-

PROFESSIONAL EXPERIENCE

Full Stack Developer

Zerocode Innovations Pvt Ltd

June 2019 – Present

- Developed and deployed scalable full-stack applications using **React.js, Node.js, and Next.js**
- Designed and implemented **RESTful APIs** ensuring high performance and security

- Optimized **MySQL and MongoDB databases**, improving query performance and scalability
- Built reusable UI components and enhanced application performance by 30%+
- Collaborated with cross-functional teams in Agile environments for faster delivery
- Integrated third-party APIs and automation tools to streamline workflows
- Leveraged AI-assisted coding tools to improve development efficiency

Faculty (Programming & Web Technologies)

NIIT

June 2018 – May 2019

- Delivered training on **C programming and HTML5**
 - Mentored students in programming fundamentals and project development
 - Designed curriculum aligned with industry standards
 - Conducted code reviews, assessments, and technical evaluations
-

PROJECTS

Assets Management System (Apollo Pharmacy)

- Built enterprise asset tracking system with full lifecycle management
- Designed scalable database architecture and REST APIs
- Developed responsive UI using React.js

Apollo CMS (Ticket Management System)

- Implemented ticket lifecycle workflows (create, assign, escalate, close)
- Designed backend APIs and frontend dashboards

Talent Acquisition System (TA)

- Developed recruitment workflows including job posting and onboarding
- Built candidate management APIs and UI dashboards

Amruth (Reports Management System)

- Created dynamic reporting system with data visualization
- Optimized data retrieval and report generation performance

GMR (Hospital Management System)

- Managed patient records, appointments, and billing workflows
- Built scalable backend services and UI modules

Qlana (Banking Application)

- Developed secure financial application with authentication
 - Ensured data integrity and implemented secure APIs
-

KEY ACHIEVEMENTS

- Delivered multiple enterprise-level applications for Apollo Pharmacy
 - Improved application performance and development speed using AI tools
 - Designed scalable architectures handling high-volume transactions
-

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science
UBDT College of Engineering, Davangere – 2017

LANGUAGES

Kannada, Telugu, English

ADDITIONAL INFORMATION

- Strong problem-solving and analytical skills
- Excellent communication and teamwork abilities
- Passionate about learning new technologies and AI advancements
